Subject: RE: propose changes to 10538919

Dear Mr Le

My apologies again for the delay. We have reviewed the proposed amendments and agree with them. Will you make these as an examiner's amendment or should we submit them as an amendment?

Thanks

David Owen

Subject: propose changes to 10538919

Mr. Owen,

Please advise as soon as possible if the proposed changes below are acceptable.

In the claims:

in line 3 of claims 1 and 19, "for independent guidance" needs to be changed to -- independently guiding --,

in line 4 of claims 1 and 19, "can be" needs to be changed to -- is --,

claim 5 needs to be cancelled because claim 1 already includes all of the features of claim 5,

claims 6, 8-9 need to be change to depend from claim 1 instead of claim 5 if claim 5 is to be cancelled,

in claim 7, "rubber-metal elements" needs to be changed to -- a rubber-metal structure -- so as to avoid the requirement of drawing correction (by the way, the proposed drawing filed 4/29/08 is not approved for entry because the change is not considered to be clearly supported by the orginally filed disclosure; however, if the above proposal to claim 7 is accepted, the previous objection to the drawing will be withdrawn).

in claim 11, lines 1-2, "having two coild springs" needs to be changed to --wherein, said at least one coil spring includes two coil springs--,

in claim 15 is still indefinite as being in an improper form, it should be changed to as follows: A bogie comprising two wheel sets, each provided with a wheel set guidance assembly according to claim 1.

Thanks.

Mark Le
